

PURGATORY AREA I

PROJECT TYPE MULTIFAMILY
SIZE 48 CONDOMINIUMS
800SF-1,500 SF

JZMK Partners has designed 48 Condominiums to be built on a small parcel of land at the Purgatory Ski Resort in Durango, Colorado. The 48 units are split between two 5-story buildings with 4-stories of units, and parking on the ground floor. Designing for this hillside parcel was quite challenging, with as much as 60 feet of fall across the small site, but the payoff is in the spectacular panoramic views from virtually all of the condos perched atop the mountainside community. Residents will enjoy being within walking distance to the ski lodge and slopes.
